**To have a name added to this list it is important that you have spoken with your friend and have obtained their permission to add their name to our prayer list. Some persons are private, and it is important that their wishes be respected. "Private" prayers not to be placed before the congregation, as always, may still be given to the pastor or other pray-ers whom you know on a confidential basis. Be sure your prayer request card is signed by you before giving to an usher or the office, as your signature is the "permission" we need to lift you or your friend in prayer.**
